

COEN 163L

Week 7 – 2:15 section

Schedule

- 2:15-2:30 – lab 5 questions/demo time while everybody arrives
- 2:30 – introduce lab 6
- Work time – lab/assignment work, demos, etc.

COEN 163L

Week 7 – 5:15 section

Schedule

- 5:15-5:30 – lab 5 questions/demo time while everybody arrives
- 5:30 – introduce lab 6
- Work time – lab/assignment work, demos, etc.

COEN 163L

Lab 6&7 – Heuristic Evaluation

Work as a group for lab 6~7

Lab 6 – Finalizing project prototype

Lab 7 – Heuristic evaluation on the prototype

Lab 8 – User study design (individual)

Lab 6 Tasks

In order to prepare for your project heuristic evaluation, each team should commit a **finalized prototype**. So, this lab, you are going to work as with your final project team and submit 2 process prototypes (At least **1 Lo-Fi** and **1 interactive one!**).

- You team members may not in the same lab, make sure to communicate and collaborate.

Submission

- Group – Prototypes
 - Submit as a link (should include lo-fi and interactive)
 - 1 submission per team, **per lab section**
- Demo

Once the prototype is discussed and agreed by your team, you may move on to Lab7 task.

Lab 7 Tasks

Refer to [Nielsen's 10 Heuristics](#)

Follow the heuristics evaluation procedure (5 steps) to evaluate your final project prototype.

Submission

- Individual – individual evaluation tables
- Group – aggregated evaluation tables and UARs
- No demo!

** TA will go over Lab 7 in more detail in the next lab*
