COEN 163L
Lab 4

Jason Vu:

1. Find the homepage on JAVAB3ANS Tutoring site
2. Scroll down to see the list of useful links and resources in the footer
3. Find out how the JAVAB3ANS Tutoring site works with the "get started" section
4. Locate and submit contact form

Procedure Notes…
- website looks really realistic and functional
- is overall very readable and well organized
- offers many different visuals and a lot of useful information
- could offer textboxes to submit the contact form
- overall very professional impression
- could improve contact form with functional textboxes

Kristin Tong

1. Open up Brainy Babes website and find the main page
2. Practice registering for an account
3. Find out where Brainy Babes is located
4. Submit a contact form

Procedure Notes…
- Login/register page looks very neat and organized; there's an option to show or not show the password before submission
- Could highlight the page navigation bar's background color when the user goes to that page e.g. login/registration
- Good form validation implementation
- Could use more padding on the "about us" and "login/registration" sections so users wouldn't have to scroll down to see all of the boxes laid out
- "Contact form" is very well put together and gives a very cordial and down-to-earth vibe
